**HEMAYAH**  
SAFETY CONSULTANTS

# COMPANY PROFILE

**PASSION TO CONSULT,  
INSPECT AND TRAIN!**

# ABOUT US

Hemayah is an independent third-party safety consultant. We can consult, inspect and provide the certifications, also can provide international and national safety trainings all across the UAE. Our reputation in the market is accredited to state-of-the-art services at affordable prices. Hemayah Safety consultants is a part of the Bin Hilal Group.

Our team consists of dedicated as well as trusted experts in Third Party Inspections and Trainings, we have a group of dedicated technical engineers with comprehensive experience powered by advanced technology to provide the most ideal solutions for challenges in modern buildings, shopping centers, hospitals, skyscrapers, industrial, infrastructure, warehouses, Educational sector buildings, facade/cladding/building envelopes, etc.

Hemayah's safety consultants is a House of Expertise (HOE) in Fire Safety Engineering and Management that is licensed by the Ministry of Interior, Civil Defense HQ. Our team is led by a professional fire engineer accompanied by a group of experienced engineers from similar and complementary disciplines. We supervise, control and recommend mitigating Fire & Life Safety provisions across establishments in conjunction with the Authority Having Jurisdiction (AHJ) as per the regulations issued by the UAE Civil Defence.

Hemayah has ISO/IEC 17020:2012 accreditation under Emirates International Accreditation Centre (EIAC). Our services include but are not limited to inspecting, testing, and certifying all kinds of cranes, material lifting equipment in the construction industry, lifting appliances, lifting gears, earthmoving machinery, material handling equipment, pressure vessels, and storage tank, NDT, Welding and thermography.

Hemayah Safety Consultancy is approved and recognized by the Knowledge and Human Resource Development Authority (KHDA) Dubai Municipality, Ministry Of Labour, Jafza And Civil Defence to carry out Occupational Safety Training authorized to conduct Machine Operators training, Health, Safety, Environmental, Quality training courses for all Industries and Occupations that are compliant with national and international standards.

## MISSION

Our mission is to save lives, protect property and preserve the environment by providing a customized fire safety solution.

Also, to deliver high-quality third-party inspections, training and personal certifications complying with national and international standards.

## VISION

To become the leading independent third-party specialist in inspections, and training who consult, inspect, and provide personal certifications.

# CHAIRMAN'S MESSAGE

"Hemayah Safety Consultant has come a long way in the business. I was inspired from the very beginning in the role I could the development of Dubai as well as the UAE."

*Always aspire to Dream more. Learn more. Achieve more*

MOHAMED BIN HILAL

**Chairman**

# OUR SERVICES

## FIRE AND LIFE SAFETY ENGINEERING SERVICES

Fire engineering is an almost new science that joins the science of how fires start, spread with human behavior i.e. how people react to them. This brings to life the engineering discipline that exists to protect everyone and everything including the environment from fire.

Hemayah Fire Consultants are the leaders in fire safety, security and risk-based engineering and consulting. Our team has fire protection specialist engineers, technical experts, architects and consultants who can provide innovative, compliant and reliable solutions.

### Our fire engineering team is here to provide all with the following services:

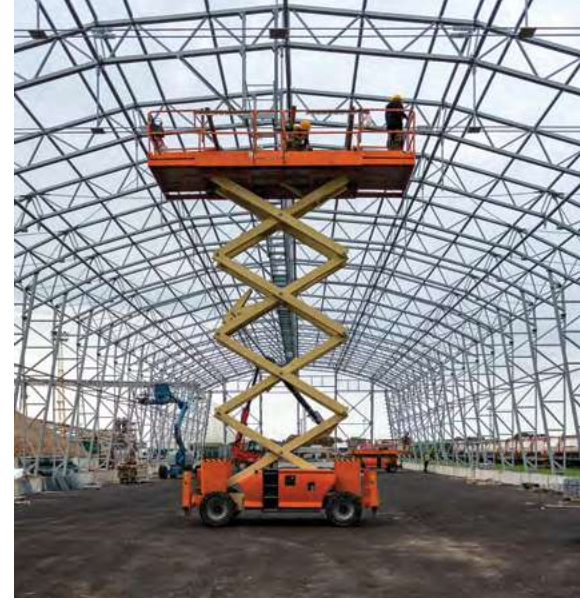

- Fire Strategies and Plan Review
- Building Code Consulting and AHJ Representation
- Structural Fire Engineering
- Value Engineering
- Performance-Based Design
- Peer reviews of Fire and Life Safety drawings
- Annual Fire and Life Safety (FLS) Audit Inspection
- Fire Protection Systems Testing & Commissioning
- Fire Safety Facade engineering
- Smoke Control Design & Testing
- Computational Fluid Dynamic (CFD Analysis)
- Evacuation Plans and Strategies
- Fire/Smoke & Egress Modeling
- Third-Party Review
- Fire Risk Assessment
- Emergency Preparedness, Fire Drill, Mitigation, Response and Recovery programs
- Fire Investigation
- Handing over Inspections

- LIFTING EQUIPMENTS
- LIFTING ACCESSORIES
- PRESSURE VESSELS & STORAGE TANKS
- NON-DESTRUCTIVE TESTING
- EARTH MOVING MACHINERIES
- SPECIALIZED INSPECTIONS
- SCAFFOLDING
- PPE - PERSONAL PROTECTIVE EQUIPMENT
- KHDA APPROVED SAFETY TRAINING

# LIFTING EQUIPMENTS

- Elevators (Passengers, Dumbwaiters and Goods)
- Escalators & Travelators (Moving Walks)
- Cradle (Suspended Access Equipment)
- Forklifts
- Vehicle Lifts
- Mobile Elevating Work Platforms (MEWP)
- Overhead Cranes
- Mobile Cranes
- Chain Block/ Lever Hoist
- Fire Fighter Lifts
- Platform Lifts (Lifting Platforms)/ Lifts for Disabled
- Earth Moving Equipment's

# LIFTING ACCESSORIES

A lifting accessory is any equipment that completes the lifting function that carries the load to lift equipment. It is an essential component that must be of the highest quality to ensure the safety of the person as well as the site. Lifting Accessories fall under the following categories:

- Wire Rope Slings
- Webbing Slings / Round Slings
- Spreader Beams / Lifting Beams
- Hooks
- Shackles
- Eyebolts
- Chain Slings

# PRESSURE VESSELS & STORAGE TANKS

Any pressure vessel is a container that is planned to carry either liquids or gasses at a pressure that is considerably varied from the ambient pressure. Hemayah's safety consultants carry out safety inspections for various pressure types of equipment.

- Calorifier
- Air Receiver
- Expansion Vessels
- Boilers
- Air Compressor
- LPG Tanks
- Water Tanks (Drinking water)

# NON-DESTRUCTIVE TESTING

Analysis, as well as testing, is used by industries to evaluate the properties of a component, material, system or structure for typical differences or welding defects that continue to run without causing damage to the original part. It is also known as non-destructive examination (NDE), nondestructive inspection (NDI) and non-destructive evaluation (NDE). The non-destructive testing services we offer are designed to comply with a wide variety of industry standards, as well as unique client requirements.

*Some of the non-destructive examinations we at Hemayah safety consultants undertake:*

- Liquid Penetrant Testing (PT)
- Radiography (RT)
- Ultrasonic Testing (UT)
- Magnetic Particle Testing (MT)
- Visual Testing (VT)
- ASME Sec IX Basic Training
- API 510 - Pressure vessel inspection & Inspector supply
- API 653 - Storage tank Inspection
- CSWIP 3.1 Welding Inspector inspection & Inspector supply

# SPECIALIZED INSPECTIONS

Hemayah safety consultant prides itself in undertaking specialized inspections that are specific to assess certain aspects of sites all across the UAE. Some of the specialized inspections our team undertakes are as follows:

- Thermography, Earth Pits & Lightning Arrestors
- Electrical Integrity & Earthing Continuity Tests
- Racking System Inspections
- Pull Out Test
- PAT (Portable Appliance Tests)
- Generators
- Vibration Analysis
- LPG Distribution System
- Glass Barriers, Hand Rails & Guard Rails
- Dock Levelers
- Torque Verification

# SCAFFOLDING

Hemayah safety consultant offers scaffolding inspection thereby ensuring that it is safe to use at project sites. Our skillful team of scaffolding experts with years of industry experience and our organizational expertise together handle scaffolding inspection for various industries.

*Some of the scaffolding inspections, we can undertake on your behalf are as follows:*

- Mobile Scaffolding
- Scaffolding Falsework (formwork)
- Fixed Scaffolding
- Scaffolding accessories

# PERSONAL PROTECTIVE EQUIPMENT

Personal Protective Equipment (PPE) is absolutely essential for any major industrial site or commercial building. They ensure the workers who are the backbone of any project are completely protected. Especially at sites across the UAE, PPE is quite essential to ensure the safety of the people as well as the property. Some of the PPE equipment, Hemayah's fire consultants can advise you on are as follows:

- Rope Access - PPE
- Safety Harness - PPE
- Welding PPE
- Respirator PPE
- General PPE

# KHDA APPROVED SAFETY TRAINING

The Knowledge and Human Development Authority (KHDA) is responsible for the growth and quality of private education in Dubai. They support various educational institutions parents, students, teachers, investors, and government partners to bring a high-quality education sector that aims at overall well-being and happiness. Hemayah safety consultant offers various KHDA approved training courses such as:

- Cradle Operators & Safety
- Forklift Operators & Safety
- Construction Safety
- MEWP Operators & Safety
- Tower Crane Operators & Safety
- Off-Shore Crane Operators & Safety
- Mobile Crane Operators & Safety
- Over-Head Crane Operators & Safety
- Construction Hoist Operators & Safety
- Riggers: Level 1 & 2 Trainings & Certifications
- Banksman/Signalman: Trainings & Certifications
- Lifting Supervisor - Safety Training
- Scaffolding - Erection & Dismantling
- Scaffolding- Supervisor & Inspectors
- Hot Works - Safety Training
- Machine & Power tool operators
- COSHH-Control Of Substances Hazardous to Health
- Induction and training
- Construction safety
- Working at Heights
- Fall protection & rescue operations
- PPE - Personal Protective Equipment
- HSE - Health, Safety & Environment
- General workplace safety
- Handling Oxy-Acetylene
- Dangerous Goods
- Environmental Awareness
- Paint Spill & Containment - Safety Training
- Fall protection and ladder safety
- B Fire Watch - Safety Training
- Fire Warden & Fire Management
- Manual Lifting and Handling Techniques
- Beat the Heat
- Job Hazard Analysis
- HIRA-Hazard Identification & Risk Assessment
- LOTO Training
- Permit To work training
- Defensive driving training
- Authorized gas tester training
- Basic electrical safety
- Safe welding
- Earth moving equipment operator training
- Confined space training
